Hands-on AI Product Manager with deep technical fluency in RAG systems, automation pipelines, and LLM integration. Over a decade of experience shipping creative and technical products—from RIAA-certified music videos to Steam-released MMORPGs. Proven ability to own products end-to-end, bridging product strategy with system architecture and execution. Specialized in turning ambiguous problems into structured, production-ready AI workflows.

EXPERIENCE

AI Product Manager / Creative Technologist

Feb 2025 – Present

Freelance — Toronto, ON

- Architected retrieval-augmented AI workflows for automated content tagging, summarization, and classification in production environments.
- Defined structured prompt interfaces with JSON outputs to improve reliability, traceability, and downstream automation.
- Built and shipped API-driven AI services using FastAPI and OpenAI APIs supporting marketing, translation, and content systems.
- Applied multilingual adaptation principles across AI workflows supporting English and Portuguese datasets.

Automation Engineer (Independent Project)

Oct 2025 – Dec 2025

Audi Downtown Toronto — Toronto, ON

- Designed vehicle workflow tracking application improving operational visibility for a high-volume luxury dealership.
- Built Kanban-style system for tracking vehicle states (detailing, service, delivery) with color-coded status indicators.
- Implemented offline-resilient workflows ensuring continued operation during network interruptions.
- Created role-based views for advisors, technicians, and managers reducing coordination friction.

AI Product & Community Strategist

Jun 2019 – Nov 2025

Nin Online (Steam MMORPG) — Remote

- Led creative and strategic initiatives for a live Steam MMORPG, driving sustained community growth and engagement.
- Designed and built NinWikiBot—an automated knowledge system reducing documentation overhead and onboarding friction.
- Architected bot workflows using structured data, automation logic, and moderation safeguards.
- Drove organic promotion via streamers and YouTubers, increasing reach without paid advertising.
